

Instructions to CIM Students following the New Curriculum

Dear CIM Student:

As you may know, the University Board has recently approved the New Curriculum for all B.S. Programs in CIM. As a result, **you will be following the New Curriculum** for your major starting term 181.

Please note:

- If you are enrolled in MATH 101 for term 181, please drop it.
- If you are enrolled in MATH 102 for term 181, please drop it.
- Students who completed MATH 101 prior to term 181 will not need to register MATH 106 as part of the new curriculum.
- Students who completed MATH 101 & MATH 102 prior to term 181 will not need to register MATH 106, MIS 101, and MGT 355 as part of the new curriculum.

To minimize unnecessary mistakes in registration and to answer all your questions, it is essential to visit the booth in the lobby area of building 24 to get direction on which courses to register or visit your department.

For more information on the new curriculum, please visit the relevant link for your Major.

Accounting and MIS (curriculum download buttons at the bottom of the page)
